

AREAS OF EXPERTISE

- Industrial Design
- Construction Management
- Remedial System Design

EDUCATION

MS, Environmental Engineering
Ohio University,
Athens, Ohio – 1988

BS, Civil/Sanitary Engineering
Ohio University
Athens, Ohio – 1980

REGISTRATION

Professional Engineer
➤ New Hampshire
➤ Rhode Island

PROFESSIONAL HISTORY

Aries Engineering, Inc.
Concord, New Hampshire
1988-Present

Law Environmental, Inc.
Denver, Colorado
Kennesaw, Georgia
1984-1986

Tennessee Valley Authority
Knoxville, Tennessee
1980-1982

AFFILIATIONS

Andover Village Water District
Commissioner 1994-2007

Town of Andover NH
Budget Committee 1998-2007

American Society of Civil
Engineers - Member

SPECIAL TRAINING

OSHA 40-Hour Hazardous Waste
Health and Safety Certification

NH Certified Asbestos Disposal
Site Worker #ADS-0180

Joseph Vercellotti has managed engineering design and construction projects for over nineteen years with Aries Engineering, Inc. (Aries). Mr. Vercellotti is a registered Professional Engineer in New Hampshire and Rhode Island. Representative engineering work includes; industrial wastewater system designs for the biotechnology industry, the design, permitting and closure cap construction of solid waste disposal facilities, and the design and the management of ground water studies and remediation projects. The projects have required an extensive working knowledge of local, state and federal regulations. His experience includes the development of technical specifications and construction contract documents consistent with the Construction Specification Institute (CSI) Manual of Practice, detailed construction cost estimating, and the design and monitoring of construction projects. An abbreviated list of projects representing his engineering experience follows.

- Design and Construction Engineer, Industrial Wastewater Projects, Stryker Biotech, West Lebanon, New Hampshire.
- Design and Construction Engineer, Water Supply Distribution System, PAK 2000, Mirror Lake, New Hampshire.
- Design and Construction Engineer, Former Starkweather Landfill Closure Project, Peterborough, New Hampshire.
- Design and Construction Engineer, Former Debris Landfill Closure Project, Crotched Mtn. Rehabilitation Center, Greenfield, New Hampshire.
- Design and Construction Engineer, Former Debris Landfill Closure Project, Mtn. View Grand Resort, Whitefield, New Hampshire.
- Design and Construction Engineer, Hydrogeologic Study/Gasoline Recovery System Design and Construction, Manchester Department of Highways, Manchester, New Hampshire.
- Project Manager, Phase II Hydrogeologic Study, Former North River Road Landfill, Milford, New Hampshire.
- Design Engineer, Parking Lot Drainage Improvements and Conceptual Riverwalk Design, BAE Systems, Nashua, New Hampshire.
- Project Manager, Spill Prevention Control and Countermeasure Plans, Various New Hampshire and Rhode Island Bulk Oil Storage Facilities.
- Project Manager, Remedial Action Plan and Brownfield Site Development, Comcast Communications, Manchester, New Hampshire.

Mr. Vercellotti has been with Aries Engineering since 1988. His engineering career also includes Civil Engineering positions with Law Engineering, Inc. in Denver, Colorado and Law Environmental, Inc. in Kennesaw, Georgia. In addition, Mr. Vercellotti has contributed to the seismically-qualified structural steel and concrete design of nuclear power facilities for the Tennessee Valley Authority in Knoxville, Tennessee. He left the TVA to successfully hike the entire Appalachian Trail in 1982.
